

COVID-19: Operational risk assessment for school re-opening

Please note: this risk assessment should be undertaken in conjunction with the guidance on school reopening issued by the DfE on 22/02/2021:

[Guidance for full opening - schools - GOV.UK](#)

This risk assessment assumes all children will return to primary schools from Monday, 8th March 2021 and secondary schools on a phased basis during week commencing 8th March 2021 to allow for mass LFD testing of students on return to school. The DfE guidance recognises that the youngest children in schools cannot socially distance from adults or each other. The implementation of 'bubbles' are an alternative protective measure to keeping people apart. Therefore, 'social distancing' in this risk assessment refers to the use of bubbles and/or the requirement to keep to 1 or 2 metre distances, depending on the age of the children concerned.

System of controls

Based on SAGE modelling, the hierarchy of controls we have factored into our planning to help prevent the spread of COVID-19 are set out below. This is the set of actions schools **must** take. They are grouped into 'prevention' and 'response to any infection' and are outlined in more detail in the sections below.

Prevention:

1. Minimise contact with individuals who are required to self-isolate by ensuring they do not attend the school.
2. Ensure face coverings are used in recommended circumstances
3. Ensure everyone is advised to clean their hands thoroughly and more often than usual
4. Ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach
5. Maintain enhanced cleaning, including cleaning frequently touched surfaces often using standard products, such as detergents and bleach
6. Consider how to minimise contact across the site and maintain social distancing wherever possible
7. Always keeping occupied spaces well ventilated
8. Ensure individuals wear the appropriate personal protective equipment (PPE) where necessary
9. Promote and engage with asymptomatic testing, where available

Numbers 1 - 7 must be in place in all schools, all the time.

Numbers 8 and 9 apply in specific circumstances.

Response to any infection:

10. Promote and engage with the NHS Test and Trace process
11. Manage and report confirmed cases of coronavirus (COVID-19) amongst the school community
12. Contain any outbreak by following local health protection team advice

Numbers 10 – 12 must be followed in every case where they are relevant.

- Current government guidance is being applied, and specifically the DfE system of control measures set out in the latest government guidance are in place as follows:

1. Minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school

The information below is included in the school's reopening plan. This information is issued at staff and pupil briefings and in letters home to parents:

- Anyone with symptoms must remain at home and self-isolate for 10 days if they test positive. Anyone in their household needs to self-isolate for 10 days (including siblings).
- Any pupil or staff member needs to go home immediately if they have symptoms. They should take a PCR test as soon as possible.
- A child with symptoms awaiting collection needs to be isolated and kept at a distance of 2m from the supervising staff member, ideally in a well-ventilated place. PPE is required if this distance cannot be maintained or there is a risk of contaminated bodily fluids.
- If the child uses the bathroom, it must be thoroughly disinfected before use by anyone else.
- Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell. The area around the person with symptoms must be cleaned with disinfectant after they have left to reduce the risk of passing the infection on to other people.
- Routinely taking the temperature of pupils is not recommended by Public Health England as this is an unreliable method for identifying coronavirus (COVID-19).

In addition:

- Staff are reminded that they have received training on infection control that gives them a good understanding of how the spread of coronavirus occurs and can be mitigated.
- Infection control training is arranged for new staff.

2. Face Coverings

- Current government guidance regarding the wearing of face masks is followed
- All adults and children over 11 wear a mask or face covering in communal areas (such as corridors and halls) and in secondary school classrooms where 2m social distancing cannot be maintained, excluding those with medical exemptions
- Face coverings are worn by adults and children over 11 when travelling on school buses and public transport.

3. Clean hands thoroughly more often than usual

- Handwashing / sanitising is scheduled into the school day. It takes place as a minimum: when pupils, staff or visitors enter the school; at break; before and after lunch; before leaving school; whenever the toilet is used.
- Bubbles are assigned specific toilets and sinks where possible
- Additional handwashing facilities have been installed
- Handwashing routines are re-taught to pupils
- Checks are scheduled during the day on stocks of hand sanitiser, soap and paper towels. Steps are taken to ensure that there is sufficient supply in school.

4. Ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach

- Posters are downloaded/made/bought that remind pupils and staff about the approach and the importance of handwashing and are displayed around the school, particularly by washbasins/toilets and at entry/exit points.
- The location of bins around the school is checked, and more are ordered if necessary.
- A schedule for bins to be emptied / disinfected is in place and is adhered to.
- Pupils using public transport are reminded of the need to wear face coverings/masks.
- A stock of masks is maintained and made available for staff who can't socially distance (for use if they are required to provide first aid / intimate care to pupils with COVID-19 symptoms) and for pupils who do not have a mask for use on public transport.

5. Introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents

- The school's business manager ensures delivery of the induction package to cleaning staff so they fully understand their role in preventing the spread of coronavirus.
- The cleaning schedule is reviewed and if necessary additional staff hours are provided to ensure that DfE listed criteria are met.
- Stock checks and stock control are maintained

6. Minimise contact between individuals and maintain social distancing wherever possible

- Arrangements are in place to limit the number of contacts between pupils and staff.
- Bubbles are used to keep groups separate.
- Individuals are encouraged to maintain social distancing where possible.
- Staff are kept consistent with each bubble as far as possible.
- In class, furniture is arranged so that children are facing forwards and sitting side by side.
- Any furniture that is surplus to requirements is removed.
- As far as possible, children are taught not to touch each other or staff. This will involve re-learning about play time.

- No more than 1 year group ever occupies a shared space (hall, dining room etc) at one time. A 2m distance between the bubbles is maintained when 2 or 3 classes bubbles (from the same year group) are together in the same space.
- Staggered start and finish times, staggered break times and staggered lunch times are implemented.
- Children are taught in age appropriate ways about coronavirus, how it is spread and how they can play their part in keeping everyone safe.
- For each class/bubble, basic equipment (such as pen/ pencil/ eraser/ ruler) that pupils routinely need is collated and kept in separate bags. These are made available to any pupil who does not have their own equipment. Each pupil keeps this bag of equipment for their own use.
- Resources are boxed, including library books, that are needed for particular classes, to avoid pupils using shared areas such as the school library.

7. Keeping Occupied spaces well ventilated

It is important to ensure it is well ventilated and a comfortable teaching environment is maintained. This can be achieved by a variety of measures including:

- Mechanical ventilation systems – these should be adjusted to increase the ventilation rate wherever possible, and checked to confirm that normal operation meets current guidance (if possible, systems should be adjusted to full fresh air or, if not, then systems should be operated as normal as long as they are within a single room and supplemented by an outdoor air supply)
- Natural ventilation – opening windows (in cooler weather windows should be opened just enough to provide constant background ventilation and opened more fully during breaks to purge the air in the space). Opening internal doors can also assist with creating a throughput of air
- Natural ventilation – if necessary external opening doors may also be used (as long as they are not fire doors and where safe to do so)
- Further advice on this can be found in Health and Safety Executive guidance on air conditioning and ventilation during the coronavirus outbreak and CIBSE coronavirus (COVID-19) advice

8. Where necessary, wear appropriate personal protective equipment (PPE)

- The school continues to maintain and monitor stocks of PPE and has access to supplier lists.
- Staff are supplied with PPE when supervising a pupil who has symptoms of COVID-19 (if 2m social distancing cannot be ensured) and for the provision of routine intimate care to pupils that involves the use of PPE.
- Gloves and aprons are provided for cleaning staff.
- Face masks are worn by staff when cleaning visible bodily fluids from suspected COVID-19 case.
- Stocks of PPE are regularly monitored and replenished
- Staff referred to the trust PPE guidance document

9. Promote and engage in asymptomatic testing, where available

3 tests in school (3 to 5 days apart) and 1 at home offered to all secondary students in first 2 weeks of return after 8 March 2021

Home tests offered to all secondary students after this, twice a week, reported to Test and Trace and school

Home testing twice a week available for all secondary staff

Home testing twice a week available for all primary staff

Close contact testing does not resume and close contacts required to self isolate

Small ATS maintained on site for students who are unable or unwilling to test at home

10. Promote and engage with the NHS Test and Trace process

- School leaders understand the complexity of the arrangements for testing and self-isolation and ensure that staff and parents are fully aware of them. Special advice sheets are prepared in the event that a child is sent home with symptoms, for the parents of that child and other members of the bubble.
- Staff induction for return to school includes information about the NHS Test and Trace process.

11. Manage confirmed cases of coronavirus (COVID-19) amongst the school community

- The contact details for local Public Health England team and local authority health and safety team are readily to hand.
- In line with current guidance, a clear process is in place to notify the appropriate authorities of any cases that test positive (e.g., the Trust, the Local Authority, the DfE/Local Health Protection Team as required).
- A spreadsheet is maintained to record all staff and pupils who are self-isolating who have tested positive. These spreadsheets are kept up to date.
- Use is made of any template letters provided by Public Health England / local authority as directed locally.
- Toolkit for confirmed COVID-19 cases in school including the Action Plan is followed for all confirmed cases.
- Support and advice are sought from the Trust for any queries/complex cases. Further advice is sought from the Local Authority/DfE/PHE as required.

12. Contain any outbreak by following local health protection team advice

- Advice provided by the local health protection team is acted on immediately.
- Good working relationships are established and maintained enabling rapid communication with local authorities and local Public Health England.
